

## Graduate School Fee Structure Estimate

This is the estimated cost of one semester of courses (August 2015 through December 2015). It is very important for students to know that these costs do not pay for any food or accommodations in America. You must find accommodations on your own and it may be as low as \$200 per month for housing or it could be closer to \$700 per month. If you share accommodations then your cost will be less. If you live far away from campus you will also need to pay for a car and/or gas to ride with someone. You cannot depend on riding with someone from Austin or Round Rock to Belton.

**These estimates are for students enrolled in 1 ESOL classes and 2 graduate school classes:**
